Joseph G. Tylka, Ph.D.

Senior Key Expert, Siemens Technology US
jtylka.github.io

Email: joe.tylka@siemens.com
Mobile: +1 (609) 250-8271
755 College Rd. E, Princeton, NJ 08540

Education

Princeton University — Princeton, NJ
Doctor of Philosophy (Ph.D.) in Mechanical and Aerospace Engineering — 2012–2019
Master of Arts (M.A.) in Mechanical and Aerospace Engineering

University of Maryland — College Park, MD
Bachelor of Science (B.S.) in Physics with a minor in Philosophy, *cum laude* — 2008–2012

Experience

Siemens Technology US — Princeton, NJ
Senior Key Expert, Sustainable Automation Solutions — 2022–present
Research Scientist, Technology Field: Future of Automation — 2019–2022

Princeton University — Princeton, NJ
Doctoral Candidate, 3D Audio and Applied Acoustics Laboratory — 2012–2019
Assistant in Instruction, Department of Mechanical and Aerospace Engineering — 2014–2017

University of Maryland — College Park, MD
Undergraduate Research Assistant, Cosmic Ray Laboratory — 2009–2012
Teaching Assistant, Department of Physics — Fall 2011

Technical Skills

Development: Python, C/C++, MATLAB, HTML/CSS/JS || Docker, Bash, Git, GitLab CI/CD, Linux, Flask
Analytical: signal processing, machine learning, experimental design, algorithms, modeling, data analysis & visualization
Communication: customer workshops, stakeholder presentations, journal articles, conferences, technical reports, patents

Selected Projects

Audio Connector for Siemens Industrial Edge — Siemens Digital Industries
Role: *Lead Software Developer* — 2022–present
Contributions: software architecture, programming, CI/CD pipelines, open-source software clearing, technical marketing materials

Autonomous Robotic Spraying & Disinfection System — Advanced Robotics for Manufacturing (ARM) Institute
Role: *Principal Investigator* — 2020–2021
Contributions: technical project management, technology development & reusability, stakeholder management & presentations

RECON: Resilient Control Systems for Naval Vessels — U.S. Naval Research Laboratory (NRL)
Role: *Research Scientist* — 2019–2020
Contributions: data analysis, algorithm implementation, publication of results

Virtual Navigation of 3D Sound Fields — Sony Corporation of America
Role: *Doctoral Candidate* — 2015–2019
Contributions: research questions, experimental design, algorithms, programming, machining, data collection & analysis, publications

Selected Publications

[1] J. Tylka, A. Martinez Canedo, S. Srivastava, K. Goyal, and A. Breu. System and method to automatically generate and optimize recycling process plans for integration into a manufacturing design process, Aug. 31, 2021. WO Patent Application WO2022051236A1.

[2] E. Y. Choueiri and J. Tylka. System and Method for Virtual Navigation of Sound Fields through Interpolation of Signals from an Array of Microphone Assemblies, June 8, 2021. US Patent 11,032,663.

[3] J. Luo, M. Kang, E. Bisse, M. Veldink, D. Okunev, S. Kolb, J. G. Tylka, and A. Canedo. A Quad-Redundant PLC Architecture for Cyber-Resilient Industrial Control Systems. *IEEE Embedded Systems Letters*, page 4, 2020.
